

NIH Office of Disease Prevention

Increasing the scope, quality, dissemination, and impact of prevention research.

Explore

Funding Opportunities

prevention.nih.gov/FundingOpps

A list of active NIH funding opportunities related to prevention research.

Resources for Researchers

prevention.nih.gov/R4R

Federal data instruments, research findings, clinical practice guidelines, and examples of translating research into practice.

U.S. Preventive Services Task Force Insufficient Evidence (I) Statements

prevention.nih.gov/IStatements

Areas of clinical preventive services where evidence is lacking, of poor quality, or conflicting, and the balance of benefits and harms for a clinical preventive service cannot be determined.

Healthy People 2030 Research Objectives

prevention.nih.gov/HP2030-research-gaps

Critical public health issues that need evidence-based interventions and reliable baseline data.

Dissemination & Implementation Resources

prevention.nih.gov/EvidenceBasedPractice

Examples of the successful implementation of research into practice, including lists of evidence-based practices and programs and NIH Public Health Campaigns.

Research Methods Resources

researchmethodsresources.nih.gov

Information and sample size calculators to help investigators design and analyze their studies using the best available methods.

Learn

Training in Prevention Research Methods

prevention.nih.gov/MethodsTraining

Federal courses and tutorials in prevention research methodology.

Pragmatic and Group-Randomized Trials in Public Health and Medicine

prevention.nih.gov/GRT

A detailed guide to designing and analyzing group-randomized trials.

Methods: Mind the Gap Webinar Series

prevention.nih.gov/MindTheGap

Covers research design, measurement, data analysis, and other methods in prevention science.

Prevention in Focus Webinar Series

prevention.nih.gov/PreventionInFocus

Highlights the work of prevention science experts making advances in public health research.

Participate

Prevention Research Expertise Survey (PRES)

prevention.nih.gov/PRES

Share your methodological and content expertise and be added to a directory of potential reviewers for NIH research applications.

Pathways to Prevention (P2P) Program

prevention.nih.gov/P2P

This collaborative workshop program identifies research gaps.

ODP Early-Stage Investigator Lecture (ESIL)

prevention.nih.gov/ESIL

Recognizing early-career prevention scientists poised to become future leaders in prevention research.
